

SINGING GRÜNER VELTLINER 2015
BY LAURENZ V. UND SOPHIE

Origin

The grapes for this Veltliner are grown mainly in loess and gravel soils of the Kremstalregion. Their distinctive fruitiness is owed to marked alternating temperatures of the north-south positioned Kremstal: warm air rising from the Danube valley is met by cool air flowing down from the nearby Waldviertel region and along the Krets river. While this warmth influences ripeness and concentrated aromas, the coolness lends strongly to the fresh fruitiness. Thanks to the adding of some Veltliner grapes from the Weinviertel, the wine takes on a light fizzy character.

Vinification

The 2015 vintage has given us great wines with both an outstanding quality and satisfactory volumes. A beautiful spring led to perfect flowering and growth during the early summer months. July brought extremely warm days and nights, with little rainfall, and we had to wait until mid-August before the much-needed rain came to nourish the vines. A final heat wave came towards the end of August, coupled with cool nights to draw out the aromatic character in the grapes, guaranteed perfect physiological ripeness for the harvest. This enabled us to produce full-bodied wines with complexity, that display refreshing acidity and vibrant fruit characters. The 2015 vintage offers wines that possess a high quality with richness, elegance and fruit-characters, over balanced crispness and a lingering aftertaste.

The Name

LAURENZ V. stands for five generations of the Laurenz Moser wine dynasty. And with the daughter of Laurenz Maria Moser – Sophie, born in 1991 – the 16th generation of the Moser wine family is well on its way.

Tasting Notes

A very attractive fruit bouquet yields apple, peach and citrus aromas along with a typical Veltliner spiciness and a touch of white pepper. The soft and juicy palate is supported by fine acidity. It sings on the palate!

Analysis

Alcohol: 12.0% vol
Acidity: 5.6 g/l
Residual Sugar: 3.7 g/l – dry

VINTAGE
2015

VARIETALS
100% Gruner Veltliner

APPELLATION
