

## SUPERIORE DOCG

*Villa Sandi's Prosecco Superiore DOCG Valdobbiadene Extra Dry is a beautiful wine that is testament to the exceptional quality of the wines from the DOCG area. It represents the tradition of excellence of the Villa Sandi estate, as well as acts as an elegant ambassador for a unique region of steep hills and fresh and lively wines.*

### PROSECCO SUPERIORE DOCG

- Comprises fifteen communes that stretches over an area between the towns of Conegliano and Valdobbiadene.
- Very hilly with steep, south-facing vineyard slopes at altitudes of 50-500 meters above sea level (164-1640 feet).
- 5,000 hectares (12,355 acres) of vineyards are entered in the official DOCG Register.
- Mild climate, with cool winters and hot, dry summers.
- Perfectly situated to take advantage of the cooling influences of the Dolomites and the moderating temperatures of the Adriatic.
- The town of Valdobbiadene is at the heart of the actual production zone and has the greater concentration of hillside vineyards.
- The individually numbered, salmon-colored Italian State seal guarantees that every stage of production was subject to strict controls.
- DOCG designation granted in 2009.

### DOCG REGULATIONS

- Grapes: The wine is made from minimum 85% of Glera grapes and up to maximum 15% of Verdiso, Bianchetta, Perera and Glera Lunga grapes (varieties that have grown on the hills of Conegliano Valdobbiadene for centuries), or Pinot and Chardonnay.
- Yield: DOCG yield is 13,500 kg per hectare (6 tons/acre).

### EXTRA DRY CLASSIFICATION

- One of three types of sparkling wine allowed in the DOCG: Brut, Extra Dry and Dry.
- Of the three types, Extra Dry is the most traditional sparkling wine of the area.
- Bright straw in color, the wine offers rich scents of apples and pears, together with a hint of citrus fruits that gives way to floral tones. On the palate, it is mellow yet crisp thanks to its brisk acidity.
- The residual sugar may vary between 12 and 17 g/l.
