

# ISOLE E OLENA

## CABERNET SAUVIGNON IGT TOSCANA 2019

### ORIGIN

This vineyard covers 3 hectares and is planted on soils of marly shists and limestone with a south-southwestern exposition at 300-400 meters.

### VINIFICATION

Fermented in stainless steel tanks. It ages in barriques for one year, in a ratio of one third new oak, one third second use, one third third use, plus two years more in bottle.

### VINTAGE

A mild and relatively dry winter and early spring allowed a regular budding while some rains during the second half of spring prepared the terrain for a classic summer with only little rain and characterized by regular, warm temperatures with very few extreme peaks. Bunches were in excellent health which resulted in a generous yield, both in terms of quality and quantity.

ALCOHOL: 15%
