*“Boasts beautifully pure fruit, with black and red berry flavors layered with sweet licorice, giving way to warm earth and wet stone. Reveals white pepper, olive tapenade, dried thyme and sanguine undertones, which build toward the persistent finish. Drink now through 2030.”*

*“Inky ruby color. Smoke-accented black and blue fruits, olive, cola and black pepper on the perfumed nose. Plush, sweet and open-knit, offering sappy blackberry, cherry and mocha flavors that are braced by a spine of juicy acidity. Shows very good clarity and finishes long and round, with supple tannins building steadily and adding gentle grip. Virtually all of this fruit is sourced from the limestone-dominated soils in the southern sector of the appellations.”*
