

# OBERON

Blend: ~92% Sauvignon Blanc,  
~8% Sauvignon Musqué  
Alcohol: 13.7%  
TA: 6.2 g/L  
pH: 3.18

## Over 45 Years of Napa Winemaking Roots...

Napa Valley native and winemaker, Tony Coltrin, brings more than 45 years of winemaking experience to Oberon, with expertise in sourcing quality fruit from the best vineyards in the valley and understanding the region's uniqueness for growing classic Bordeaux varieties. His long-standing relationships with local growers ensure a consistency in the quality of the grapes grown in premier Napa sub-appellations for Oberon.

## Vintage 2023

In 2023, Napa Valley experienced one of the longest growing seasons in a decade or more. With consistent, mild weather throughout the season, above-average crop yields, and extended hang time, 2023 is an exceptional, high-quality, memorable vintage. We harvested our warmer climate Pope valley fruit beginning in August, and ended with our cooler climate Carneros fruit in September strategically planning multiple pick dates to ensure separate fruit lots with different ripeness levels from which Tony could create a layering of flavors that gives our 2023 Sauvignon Blanc in its unique and familiar style.

## Napa Vineyards

The 2023 Oberon Sauvignon Blanc embodies our distinctive style. The combination of fruit with different ripeness levels brings bright natural acidity along with layered fresh fruit flavors of green apple, tart kiwi, pear and melon. "With each vintage, we want Oberon Sauvignon Blanc to show bright natural acidity and fresh flavors. We also want an underlying richness and complexity that balances the wine and adds fullness and length." says winemaker Tony Coltrin.

## Winemaking

Tony Coltrin set out to maximize fruit expression in our 2023 Oberon Sauvignon Blanc from Napa Valley. "We used both cold tank fermentation and 14% barrel fermentation to maximize the overall fruit expression. The cold-fermentation in tank helps us maintain the pureness of fruit and aromatics, and barrel fermentation adds a subtle creaminess and length."
