

# ISOLE E OLENA

## CABERNET SAUVIGNON IGT TOSCANA 2020

### ORIGIN

This vineyard covers 3 hectares and is planted on soils of marly shists and limestone with a south-southwestern exposition at 300-400 meters.

### VINIFICATION

Fermented in stainless steel tanks. It ages in barriques for one year, in a ratio of one third new oak, one third second use, one third third use, plus two years more in bottle.

### VINTAGE

2020 commenced with a mild, dry winter. Temperatures dropped significantly in March and care was needed in the vineyard to prevent frost damage to the vines. Summer was dry and mild with the steady weather conditions until the end of August, when the region saw some bouts of rainfall. However, the weather calmed during September and the 2020 harvest gave excellent results both in terms of quality and quantity.

ALCOHOL: 14.5%
